**Dr: Ahmed Abdel-Rahman Ahmed Bedir**  
EFL Instructor – Faculty of Education – Benha University

**Date of Examination:** February 13, 2017 (13/ 2 / 2017).

---

## **Model Answer**

### **I- Reading comprehension (10 marks)**

**Read the following passage carefully and answer the questions:**

**a) Answer the following questions (5 marks)**

**1- What is the topic sentence of the first paragraph?**

Narcolepsy is a disease characterized by malfunctioning sleep mechanics.

---

**2- What is the thesis sentence of the whole passage?**

The answer for this question depends on student's own point of view, only under one condition which is to write his view in a complete sentence. However, the best answer might be "Narcolepsy has two types each of which has its own symptoms".

---

**3- According to the passage, what do the nighttime narcoleptics suffer from?**

Nighttime narcoleptics may suffer from hallucinations that consist of realistic perceptions of sights and sounds during the semi-conscious state between wakefulness and sleep. Narcoleptics may also suffer from night wakening during sleep, resulting in extremely fragmented and restless sleep. Then, upon waking, a narcoleptic may experience sleep paralysis, the inability to move, perhaps for several minutes, immediately after waking.

---

**4- What does the underlined word “Paralysis” mean?**

Sleep paralysis means the inability to move, perhaps for several minutes, immediately after waking.

---

**5- Give an appropriate title for the passage.**

The answer for this question depends on student’s own point of view, only under one condition which is to write his view in a short phrase or clause. However, the best answer might be “Narcolepsy Symptoms”.

---
